Subject: Public Records Request

Dear Ms. Anderson,

The federal EPA ECHO database reports two state enforcement actions against Safety-Kleen Systems at 23 W 2nd St Barre, VT 05641 (Registry ID: 110000620392) which resulted in state penalties in the last five years. In one case bearing settlement/action date 3/13/2019, Safety-Kleen was fined \$70,000 for RCRA violations. In a second case bearing settlement/action date 8/07/2017, Safety-Kleen was fined \$25,000 for additional RCRA violations. No case numbers were available on ECHO. However, regarding these two enforcement cases, I request copies of any Complaints outlining the alleged violations, as well as any Consent Agreements and Final Orders outlining the conclusions of the case, along with the calculation worksheets of the financial penalties.

Because these are RCRA violations, I am sending my request to you at the Waste Management Division.

I prefer records in electronic format. If the cost should exceed \$100, please contact me before proceeding.

Nick Jusino
